BOIL WATER ADVISORY

TO THE RESIDENTS OF LAMAR, SC

(November 09, 2026)

The Lamar Public Works Department and the Lamar Town Council advises the residents and businesses of Main Street, South Railroad, North Railroad, Pearl Street, Pine Street, and McClain Street of Lamar, SC, located in Darlington County, to vigorously boil their water for at least one (l) full minute prior to drinking and cooking. In addition, water service throughout the Town had to be turned off to fix the repair on South Railroad. Some of the water service interruptions were very brief; however, as a precaution, we would advise all citizens who purchase water from the Town of Lamar to adhere to this advisory.

A major line break in The Town of Lamar water system has resulted in a loss of pressure and service to many of the customers of the system. There has been no confirmed contamination of the system. However, because of the loss of pressure, customers are advised to vigorously boil their water for at least one (l) full minute prior to drinking or cooking until otherwise notified by the Town of Lamar. Also, any ice made from water that has not been boiled should not be used for drinking purposes.

The Lamar Public Works Department has repaired the leak, and water service has been restored throughout the Town. The Town will send a "Boil Water Advisory Repeal" notice once the water has been sampled and the sample comes back clean. This can take up to 24 hours.

If you should have any questions concerning this Advisory, you may call:

Inez B. Lee / Mayor, Town of Lamar
(843) 230-7137
